

CAP Debt Help

CAP provides your church with all the training and support to enable you to deliver a professional debt counselling tool that's proven to help some of the most vulnerable in society.

Activity We do all the debt counselling centrally, allowing your Centre Manager to focus on supporting the clients spiritually and practically. This means your church won't have to worry about all the financial and legal knowledge, as our highly trained caseworkers at head office will take care of all that for you.

Time Frames Once the training has been completed it will take several months to build a team of volunteers, advertise for donations and connect with care professionals. If there is already an established foodbank in your area, talk with them first to see if you could partner with them or support their work.

Financial Costs/Contribution CAP ask churches to make a monthly contribution of £600 to cover the costs of running a CAP Debt Centre. Many churches will also choose to employ their Debt Centre manager in addition to this.

Civic Partnership

CAP will help you to connect with local authorities and other organisations who can provide referrals.

Project Support

CAP provides all relevant training, including regional leadership events to enable volunteers to deliver a professional debt counselling service.

Physical Resources

The CAP Debt Centre manager will require access to a computer, internet, and a mobile phone. They will also need transport to conduct home visits.

Human Resources

You will need one dedicated centre manager and a few volunteers who have great communication and people skills.

"I can honestly say CAP has transformed us as a church. We have helped hundreds of people out of debt and seen people come to church and become followers of Christ who would not have come otherwise."
CAP Church Partner

Replications

CAP Debt Help has
283
projects across
the UK

"If it was not for CAP coming into my life, I would not be here today. Now I am stronger knowing I have God's love."
