

KICK

KICK equips local churches to transform young people's lives with God, love through sport, street dance and additional support.

Activity: Volunteers set up a KICK Academy to deliver sports or street dance coaching and share the KICK thought for the day.

Time Frame

It will take around 6 weeks to complete the training and set up. The KICK Academy runs for 90 minutes each week during term time and leaders will need to build in an hour of preparation.

Financial Costs/Contribution

An affordable project which typically costs £400 - £700 to start.

Community Support

Engage with local community schools to introduce KICK and see more young people attend your KICK Academy

Project Support

KICK provide all resources, training and support and you can contact established projects. Training days take place every term and experienced volunteers have an annual vision day.

Physical Resources

You can deliver a KICK Academy from a range of spaces such as a local park, church premises or even a local school.

Human Resources

A KICK Academy Leader needs to be appointed and then one volunteer for every 10 young people who attend.

"We love KICK. They have been so helpful in us setting up our KICK Academy, that now we can run weekly sessions in our local community, for our local young people, by volunteers from the local church." KICK Church Partner

Replications

KICK Academy has
7
projects across
the UK

"I can talk to the KICK coaches about anything, they listen and I feel accepted for who I am."
Kick Participant.
